Beth/Leroy:

The meeting with the community went well. The ASTs and Frac Tanks are a big concern for several of the residents that live adjacent to the facility. We need to make sure that we are doing everything possible to remove the contents of these tanks and send them off for disposal in the most efficient and timely manner (preferably prior to Christmas Break). I would like us to try to execute on the removal of the contents from the Frac Tanks and ASTs that we have data.

Thanks
